Redlight Diaries private walking tour - Amsterdam

The Red-light District “De Wallen” is one of the most famous areas in Amsterdam. This part of the City is especially known for its coffeeshops and the many widows where charming ladies display themselves in an area lit up by red and blue lights. One of the freedoms in The Netherlands is prostitution which by law is considered as a legal profession.

During more recent years the area has been cleared from its shady image, streets have been renovated and many widows replaced with arts and fashion displays. Nevertheless enough of the windows still remain and are considered relevant to the area. The Red-light district has many interesting stories to tell and a private guided walking tour by a knowledgeable local will take you through its shady history, the smallest alley, monumental sites and China Town.

We will take a stroll and discover everything about the rise of the “coffee shops” and how prostitution developed, explaining the policy and how the Government manages it. Listen to the story of Joanie, how she grew up in the 60's and 70's of this last century and how she managed to survive in this tough neighborhood. Could she resist the temptations? Did she find the love she yearned for?

I will take you also back in time on an adventure about life in the 16th century, how it has been in this neighborhood and who lived here. You will be pleasantly surprised and fascinated.

A lot of this history is still to be discovered today. Because of the isolated location of the islands its like time has stood still and holds a small village appearance whilst still being in centre of Amsterdam.

The walk will take you along stunning warehouses, picturesque houses, nostalgic bridges and modern architecture. You will stand in awe of the public gardens and the only remaining shipyard on the island. This tour is taking you off the beaten track and away from the tourist routes.

We will walk past the birthplace of the famous photographer Jacob Olie and the former studio of the artist Georg Breitner. Visit the area where once stood the defensive wall with a wonderful view of the old timber port and berthed boats. Belgian Chocolate Tour – Brussels

When it comes to chocolates, there are the everyday candy bars we consume, and then there is Belgian chocolate. What makes Belgian chocolate unique is the quality of ingredients and an almost fanatical adherence to Old World manufacturing techniques. Even in today's world of automation and mass production, most Belgian chocolate is still made by hand in small shops using original equipment.

Belgian chocolate may be expensive, but those who have sampled it say that there is no comparison between a standard chocolate bar and a Belgian praline. As a gift or special indulgence, Belgian chocolate is one product which lives up to its reputation for quality. You want to know all about it, then listen, watch, smell and taste on this chocolate tour.
